DETAILED ACTION

Response to Amendment

This communication is responsive to the amendment filed 04/08/2009.

Claims 1-12, 14, 16-20 and 22-26 are pending in this application. Claims 1, 17, and 22 are independent claims. In the amendment filed 04/08/2009, Claims 1, 6, 10, 17, and 22 were amended. This action is made Non-Final.

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 04/08/2009 has been entered.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-12, 14, 16-20 and 22-26 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is unclear what the Applicant is claiming.

With regard to independent claim 1, Applicant's amended claim recites, "a local user display region, wherein the local user display region is divided into at least three regions, the regions comprise the entire display and do not intersect, the three regions comprising; a taskbar region; a desktop region, wherein the taskbar region represents an area of which is outside a desktop region; and a toolbar region, wherein the toolbar region includes the entire display besides the taskbar region; a remote user display region; [and] the desktop region within the local user display region..." The claim limitations recite four regions that must be present (taskbar, desktop, toolbar, remote), but the claim language only states that "at least three regions" must be present.

Furthermore, the first part of the amended claim requires that the regions do not intersect. However, further claim limitations require that some of the regions do intersect (a tool bar region will include the desktop region but not the taskbar region).

Independent claims 17 and 22 are similarly unclear. For example, claim 22 at first requires distinct areas, but then states that the toolbar region includes the sharer desktop region. As a result, the areas will not be distinct as the claim requires.

Since the Examiner cannot deduce the scope of the claim language, no art rejection will be applied.
